LONGSHOREMEN'S STRIKE TIES UP SEATTLE CARGOES

[Associated Press by Fed. Wireless.] SEATTLE, Wash., March 16.—Shipping here is badly out of joint for want of longshoremen to handle cargoes. Union longshoremen refused yesterday to unload the British tramp Glenrude, which had discharged at the pier in question, or the American-Hawaiian freighter Hawaiian and the Toyo Kisen Kaka cargo boat Sado Maru, neither of which had touched there. Non-union men are working the Panama Maru, Oanta and Crown of Beville at Tacoma.

WORKMEN NEEDED AT KAPIOLANI PARK

Lack of workmen has led to the deterioration of Kapiolani park according to Superintendent W. H. Bishop, who is in charge of the park. Formerly there was a crew of 13 men. Correspondent only eight men, D. C. March 5.—Grounds, which of the navy department are firm in the determination to visit Hawaii on an official tour of inspection and bring with him five battalions of the first-class. He says all the various disappointments connected with the formal opening of the Panama canal, and even the abandonment of the big junket planned for businessmen and diplomats, has not caused change in his plans. Official Bulletin correspondent was in a critical situation. Dangers today received when the ship caught fire from the shore.

ALBANY, N. Y., March 16.—Senator Elihu Root announced here yesterday that under no circumstances would he consent to let his name be put forward for the Republican Presidential nomination in 1916.

LONDON ENTHUSIASTIC OVER KANEHOE CORAL

Kanehoe has finer coral than the widely advertised Catalina Islands, says Jack London after a visit to MacKaye's Hale across the Pali. London returned from Kanehoe Sunday night with a carload of papaya and bananas as loot. "We are going back again," said Mrs. London, "and Friday is going to take in fishing in his sail boat." London found in A. L. MacKaye an old friend of the canoeboard, but of a time so remote that both are anxious to forget about it.

SHOWS NEED OF ISLANDS' SURVEY BY BIOLOGISTS

The desirability of a thorough biological survey of the Hawaiian Islands is presented in an extended paper by Professor Vaughan MacCauley of the College of Hawaii, in the last issue of the Hawaiian Forester. He shows that much of this survey work has already been accomplished by various institutions and now needs only standardization and completion. Such a survey, beginning with Oahu, would be of great value not only to scientists but also to teachers in the schools, and to that portion of the public at large that is interested in the natural history material concerning Hawaii is so scattered and so technical that it is practically unavailable to the general public. A survey such as Professor MacCauley recommends, graphically illustrated with maps and charts, is pointed out, would prove of genuine service in many ways.

GIRLS! THICKEN AND BEAUTIFY YOUR HAIR

Bring back the gloss, lustre, charm and get rid of dandruff—Try the moist cloth. To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine. It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes, but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower; destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once. If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this—advertisement.

A FLEET OF OIL TANKERS?

Can you imagine 60 large oil tank steamers coming into Honolulu harbor, each tanker loaded with 40,000 barrels of oil? This amount represents the yearly contract just closed with the Associated and Standard Oil Companies of California—two and one-half million barrels. Four years ago, after making a careful and exhaustive investigation of the Lakeview No. 2 Oil Company's prospects to deliver the goods, I decided to sell their stock in Hawaii. It was at that time, simply a hole in the ground, but with every prospect of success. My friends and others bought stock in the company solely through confidence in my statement. The company, later on, brought in the largest oil well ever discovered in the United States. They have on hand over 3,000,000 barrels of oil in surface reservoirs and an unlimited supply underground. My satisfaction, after many months of anxiety, is that the stockholders' confidence was not misplaced. The company has two large oil wells capped and closed down with a production of about TEN MILLION BARRELS, EQUIVALENT TO ABOUT FOUR MILLION DOLLARS YEARLY available for export as soon as business condition in Europe justify oil shipments. The company is incorporated for one million dollars—have sold 700,000 shares, leaving 300,000 shares as treasury stock. THE COMPANY HAS NO STOCK FOR SALE. Four hundred shares formerly selling price \$100, are now worth TWELVE HUNDRED DOLLARS; this big profit only being possible in the oil business, and explains John D. Rockefeller's great accumulation of wealth. OUR FIRST DIVIDEND IS PAYABLE MARCH 15. I look for this stock to go to \$10 per share within twelve months.

Men or women, if you wish to better your condition in life and be somebody, now is your opportunity. I predict that if you buy some of this stock, it will help you to buy your own automobile and live on easy street. Having only a limited amount of stock I will not guarantee delivery of any order to exceed 100 shares. PRICE \$100 PER SHARE. Drop me a letter at once or come and see me. J. OSWALD LUTTED, Royal Hawaiian Hotel, Phone 4321. Broker in Lakeview No. 2 Oil Stock. Phone appointments made—Adv.

STRICTER CHILD LABOR BILL DEMANDED BY MEN'S LEAGUE

Measure in Present Form Is Called Worse Than None By Committee

Amendments to the child labor bill, which has passed two readings in the lower house of the legislature, will be proposed by a committee from the Men's League of the Central Union church which held its annual meeting and dinner at the church last night. The bill provides that no child under 15 shall work more than nine and one-half hours a day nor more than 57 hours a week and no child under 12 shall work at all. The daily work must be confined between 5 o'clock in the morning and 10 o'clock at night. However, any child between 12 and 15 may work for any length of time during vacation or 60 days of the year. The committee, consisting of Dr. Scudder, Spencer Bowen and City and County Attorney Weaver, declared the bill worse than nothing in its present form, and will propose amendments. The hours should be shortened to 4 1/2 hours and no child should be allowed to work before 7 a. m. nor after 6 p. m. The committee declared it will also be suggested to the father of the bill that children should not be turned over to long hours of work after their school term. As the third reading of the bill will come up tomorrow the committee is in action today. Another measure introduced by the league last night was the "abatement by injunction" law, also before the house. This provides for proceedings to be brought against the premises used for immoral purposes. It is the most effective method of dealing with commercialized vice ever introduced, said ex-Governor Frear in explaining the bill. The attack is made upon the economic side of vice and has been successful wherever it has been tried, he pointed out. "Although the measure originated in Iowa only a few years ago it has been adopted by one state after another until all America will soon wage war upon the vice with the injunction method," he said. "When an injunction is brought against property the place is condemned and cannot be used for any purpose for a year unless given permission by the authorities. The great power of the injunction is due to the right of ordinary citizens to bring property used for lewd purposes before the law." In the speaker's opinion Honolulu was no different from other places. The league voted to express its opinion in favor of the bill when it comes up in the legislature. Judge Whitney of the juvenile court spoke briefly on several measures affecting his work. They were amendments to the adoption law, the desertion law and the curfew law. He would also raise the majority of girls from 18 to 20 years and asks for an appropriation of \$50,000 for a home for dependent children. Most of all, the juvenile work needs a detention home, said Judge Whitney. E. A. Mott-Smith asked that appropriation of \$5000 for a health survey of the schools be supported by the league. Dr. Pratt reported the work now being done by the board of health.
